01:

Your Business *highlighted*

Initial reaction to the new **flymhk.com** website has been phenomenal—over 5000 visits—from all 50 states in the U.S. in less than one month! This comprehensive site has been developed to support the new American Eagle jet service to Dallas as well as the existing air service to KC and Denver by Great Lakes Airline.

Advertising for the new jet service is just beginning to run. Every TV spot, radio spot, print ad and piece of marketing material spotlights this new website. Shouldn't your business be a part of this campaign? Beyond the great exposure your business will receive, your payments will be reinvested in the continued marketing of Manhattan Regional.
